

## Elitery Partners with CrowdStrike to Deliver Advanced Managed Detection and Response (MDR) Services in Indonesia

Event Empowering Cybersecurity with CrowdStrike - 31 Mei 2023

**Jakarta, 2nd August 2023** — Elitery, a leading managed service provider specializing in Cloud Technology and Cybersecurity, is thrilled to announce its partnership with [CrowdStrike](#), a global leader in cloud-delivered protection of endpoints, cloud workloads, identity and data protection. This collaboration aims to deliver cutting-edge Managed Detection and Response (MDR) services specifically designed for hybrid cloud environments in Indonesia. The partnership comes at a time when recent cybersecurity events have underscored the critical need for robust cybersecurity solutions to protect organizations across various cloud deployments.

As organizations increasingly adopt hybrid cloud environments, which encompass a combination of public cloud, private cloud, and on-premises infrastructure, they face unique security challenges. Elitery recognizes the importance of providing comprehensive security services to organizations operating in hybrid cloud setups. By partnering with CrowdStrike, a leader in the [2023 Forrester Wave for Managed Detection and Response \(MDR\)](#), Elitery will offer advanced threat detection, proactive threat hunting, and rapid incident response capabilities tailored to the hybrid cloud landscape.

MDR services combine continuous monitoring, advanced threat detection, proactive threat hunting, and incident response to provide a comprehensive cybersecurity solution. Elitery's MDR services, powered by CrowdStrike's cloud-native Falcon platform, will enable organizations to gain real-time visibility into their hybrid cloud workloads, detect and respond to sophisticated threats, and mitigate potential breaches before significant damage occurs.

"Our partnership with CrowdStrike signifies a significant milestone in our commitment to delivering cutting-edge managed services for hybrid cloud environments," said Kresna Adiprawira, CEO of Elitery. "As organizations embrace hybrid cloud architectures, we understand the need to provide robust cybersecurity solutions to safeguard their critical assets. By partnering with CrowdStrike, we can offer best-in-class Managed Detection and Response services tailored to the unique challenges faced by businesses in Indonesia."

Elitery's MDR services leverage CrowdStrike's cloud-native technology, threat intelligence, and expertise to provide continuous monitoring and proactive threat detection in hybrid cloud environments. Skilled security analysts from Elitery and CrowdStrike work in tandem to identify and respond to potential security incidents swiftly and effectively, minimizing the impact on organizations' operations and data integrity.

In addition to threat detection, Elitery's MDR services encompass proactive threat hunting activities. Security experts actively search for hidden or persistent threats that may have evaded initial detection, employing advanced tools and techniques to stay ahead of evolving cyber threats.

Elitery's MDR services also offer comprehensive incident response capabilities, including rapid containment, forensics analysis, and threat eradication in the event of a security incident. This ensures organizations can effectively respond to security breaches, minimize downtime, and protect their valuable assets.

With expertise in hybrid cloud deployments, Elitery's MDR services cater to organizations operating across public cloud, private cloud, and on-premises infrastructure. This partnership with CrowdStrike further strengthens Elitery's commitment to delivering exceptional managed services and helping organizations achieve a higher level of cybersecurity maturity across their hybrid cloud environments.
